

Dear Families,

Please take some time with your child in the next week to help them create an inspiration and ideas page for their writing workshop folder. Please help them collect photos or other materials that they can glue on to this page that are examples of things they might enjoy writing about. For example, photos of friends, family vacations, or memorable experiences are wonderful sources of ideas. Or, if your child loves frogs, plays on a little league baseball team, and their favorite food is macaroni and cheese, you could put a magazine clipping of a frog, a photo from their baseball team, and a cut out label from the macaroni and cheese box on their card.

Please only use items that are flat and can be laminated! Include as many images as you can on the page - both sides if possible! The children will be keeping these inspiration pages in their writing workshop folders. At times when they feel they have nothing to write about, they can reference these pages and get ideas of the many things they like and can share about.

Please complete this project during the weekend or following week and return it to school by _____.

Thank you for your help with inspiring your child's writing!
