GUIDED READING TRACKING AND PLANNING

Forms For Tracking, Grouping, and Planning

A set of tracking forms to allow you to quickly notice patterns, form small groups for strategy instructions, and plan strategy based and level based groups each week.

Table of Contents

Guided reading tracking sheet 3

This is a simple form where you list each student's name along the left column, and the dates (or week) along the column headings. Simply put a tally mark when you meet with a student. This will help you see at a glance who you have not met with recently, and who you need to see next.

Reading Skills Checklist 4

This form was designed to highlight the skills needed to successfully pass a DRA (Directed Reading Assessment) Level 4. These skills are considered the end of year goals for kindergarten in my district. This is a tracking sheet to use as needed during guided reading groups to track student progress and highlight skills they have not yet mastered.

One Week Guided Reading Planning Form 5

This form can be used to plan guided reading and/or strategy groups a week at a time. There are places for teaching points, notes, books used, and next steps. This form is very useful when used in conjunction with whole group record keeping forms, which you can download here: http://www.teacherspayteachers.com/Product/Assessment-Forms-for-Data-Driven-Instructional-Planning
